

Database Ownership Matrix

Version ۱٫۰

Status: Architectural Decision Document

State: Database Ownership Reference

Project: HamarehERP SaaS Platform

۱. Purpose

را مشخص می‌کند HamarehERP این سند مالکیت رسمی داده‌ها در پلتفرم

قوانین:

- دارد Owner فقط یک Table هر
 - تعریف می‌شود Context فقط در یک Entity هر
 - دیگر ندارد Entity اجازه ایجاد نسخه موازی از Module هیچ
 - باید بر اساس این سند انجام شود ERD طراحی
-

۲. Ownership Model

ساختار مالکیت:

SaaS Platform

Identity Core

ERP Foundation

Business Modules

۳. SaaS Platform Database Ownership

Database:

hamareh_saas_core

۳,۱ Tenant Management Module

Schema:

saas

Table	Owner	Description
tenants	Tenant Management	SaaS مشتری
tenant_domains	Tenant Management	دامنه مشتری
tenant_settings	Tenant Management	Tenant تنظیمات
tenant_status_history	Tenant Management	تاریخچه وضعیت

مالکیت:

Tenant Management

۳,۲ Subscription & Billing Module

Schema:

billing

Table	Owner	Description
plans	Subscription	پلن ها
plan_features	Subscription	امکانات پلن

Table	Owner	Description
subscriptions	Subscription	اشتراک مشتری
invoices	Subscription	صورتحساب
billing_transactions	Subscription	SaaS تراکنش مالی

۳,۳ Platform Administration

Schema:

platform

Table	Owner
platform_settings	Platform Admin
platform_audit_logs	Audit
failed_events	Event System

۴. Identity Core Ownership

Database:

hamareh_saas_core

Schema:

identity

۴,۱ Identity Management

Table	Owner
users	Identity
credentials	Identity
profiles	Identity

Table	Owner
-------	-------

user_sessions	Identity
---------------	----------

4.2 Authorization

Table	Owner
-------	-------

roles	Authorization
-------	---------------

permissions	Authorization
-------------	---------------

scopes	Authorization
--------	---------------

role_permissions	Authorization
------------------	---------------

user_roles	Authorization
------------	---------------

user_scopes	Authorization
-------------	---------------

5. ERP Foundation Ownership

Database:

hamareh_erp_tenants

5.1 Organization Module

Schema:

organization

Table	Owner
-------	-------

companies	Organization
-----------	--------------

branches	Organization
----------	--------------

departments	Organization
-------------	--------------

organization_units	Organization
--------------------	--------------

٥,٢ Master Data Module

Schema:

master_data

مالک:

Master Data

Table	Owner
currencies	Master Data
exchange_rates	Master Data
units	Master Data
countries	Master Data
languages	Master Data
tax_definitions	Master Data
calendars	Master Data

٥,٣ Workflow Module

Schema:

workflow

Table	Owner
workflow_definitions	Workflow
workflow_steps	Workflow
workflow_instances	Workflow
workflow_approvals	Workflow
workflow_history	Workflow

🔗 Document Management

Schema:

documents

Table	Owner
documents	Document Management
attachments	Document Management
document_versions	Document Management
file_metadata	Document Management

🏢 ERP Business Module Ownership

Database:

hamareh_erp_tenants

🏢 Accounting Module

Schema:

accounting

Table	Owner
chart_of_accounts	Accounting
accounts	Accounting
fiscal_periods	Accounting
journals	Accounting
journal_entries	Accounting
journal_lines	Accounting

Table	Owner
financial_documents	Accounting

٦,٢ Inventory Module

Schema:

inventory

Table	Owner
items	Inventory
warehouses	Inventory
warehouse_locations	Inventory
stock_balances	Inventory
inventory_movements	Inventory
stock_adjustments	Inventory

٦,٣ Sales Module

Schema:

sales

Table	Owner
customers	Sales
leads	Sales
opportunities	Sales
sales_orders	Sales
sales_order_items	Sales

Table	Owner
-------	-------

sales_history	Sales
---------------	-------

1.4 Purchase Module

Schema:

purchase

Table	Owner
-------	-------

suppliers	Purchase
-----------	----------

purchase_requests	Purchase
-------------------	----------

purchase_orders	Purchase
-----------------	----------

purchase_order_items	Purchase
----------------------	----------

purchase_receipts	Purchase
-------------------	----------

1.5 Manufacturing Module

Schema:

manufacturing

Table	Owner
-------	-------

bill_of_materials	Manufacturing
-------------------	---------------

bom_items	Manufacturing
-----------	---------------

production_orders	Manufacturing
-------------------	---------------

work_orders	Manufacturing
-------------	---------------

production_transactions	Manufacturing
-------------------------	---------------

1.6 HR Module

Schema:

hr

Table	Owner
employees	HR
employee_profiles	HR
attendance_records	HR
payroll_records	HR
hr_documents	HR

٦,٧ Project Management Module

Schema:

projects

Table	Owner
projects	Project Management
project_tasks	Project Management
project_members	Project Management
resource_allocations	Project Management

٧. Cross Cutting Tables

این جداول توسط کل سیستم استفاده می‌شوند اما مالکیت مشخص ندارند.

Table	Owner
audit_logs	Audit
notifications	Notification
event_outbox	Event System

Table	Owner
system_logs	Platform Admin

٨. Forbidden Duplicate Entities

ها ممنوع است Module ایجاد موارد زیر در

Entity	Owner
User	Identity
Tenant	Tenant Management
Role	Authorization
Permission	Authorization
Company	Organization
Currency	Master Data
Document	Document Management

مثال ممنوع

Inventory Module

+

users table

یا:

Sales Module

+

roles table

۹. ERD Preparation Rules

ERD قبل از رسم

باید مشخص باشد Table برای هر

۱. Database
۲. Schema
۳. Module Owner
۴. Tenant Requirement
۵. Foreign Key Policy
۶. Event Impact

۱۰. Final Ownership Statement

مدل نهایی مالکیت

One Entity

One Module

One Database Owner

One Source Of Truth

خواهد بود Migration و Schema، ERD این سند مرجع رسمی طراحی
